Cause No. UNCLASSIFIED 30703

SUSAN ANN SANDS WEDEWARD
Petitioner,

Petition For: Large Civil Claim

V.

13 C 0632

University Hospital and Clinics and Medical Foundation, Spine Clinic and Pain Clinic
Defendant,

COMES NOW the Petitioner, Susan Ann Sands Wedeward, and respectfully requests that this Court take a Commencement of Action. The Petitioner states the following information, with supporting information attached to this petition:

1. UW Spine Clinic is guilty of medical negligence for returning Mrs. Wedeward to work, without first having her see an M.D. at the Spine Clinic. Mrs. Wedeward was refereed to UW Spine Clinic by Dr. Karen Berger after suffering for ten weeks with back pain and GHC finally found on plain films a fracture at T5.

Pro se, Susan Ann Sands Wedeward 530 Allen St. Cambridge, Wi 53523

September 11, 2013

Mrs. Wedeward tried to return to work twice half time and was pulled out again.

Dr. Karen Berger refereed Susan to the Spine Clinic to treat her spine injury that happened on October 29, 2006, @1:15 A.M.. Meriter ER did not follow the AMA guidelines for Hospitalization for a spine injury until scans could be done. Dr. Kaske the following day did not order an MRI or CT scan. Dr. Hicks did not call a Spine Surgeon in and Hospitalize Mrs. Wedeward until testing could be completed. Neither Hicks nor Kaske checked Susan for a Transverse Costal Facet (for the tubercle of the rib) fracture on the left side of T5. All documents prove it happened at the Postal Service and the accident was witnessed by several co-workers. It stated on the accident form that the pain was radiating up and down the right side and red and hot to the touch. The ER notes state the same thing about the pain radiating up and down the right side and the following day said the same thing about the pain radiating up and down the right side and the shoulder are tilted.

Raina Haupt Leer PAC said their was nothing on her MRI and returned Susan to work even though she begged to see a Doctor in the Spine Clinic. Raina said that it was not necessary and returned Susan to the Postal Service on light duty with a corset and Lidocaine patches. Susan could not move her arms or work and was forced to work with this injury and it was on the plain x-ray and on the MRI. It was on the CT scans and the Bone Scan. Raina Haupt Leer returned Mrs. Wedeward to work to cause her to die sooner from this rare injury because no surgical procedure could be done.

2. Ms. Raina Haupt Leer is guilty of medical negligance and OBSTRUCTION of JUSTICE. Whether Ms. Haupt Leer thought Susan was lying about her injury happening at work or not, Mrs . Wedeward had to go out on a disability and see a surgeon to prevent Susan from dying sooner than later, Ms Haupt Leer under the State of Wisconsin needs to have her license pulled. On the plain film is evidence of a dislocated rib, an HNP lesion from it rubbing for ten weeks. The injury was on the MRI it was fractured and Susan had to be at home with hired help for grocery and house work. The injury was in writing by Dr. Linda Tampa, Susan Primary Doctor that it was on multiple levels. C5C6 were pulled T4 through T10 are unstable and L4L5 ruptured. The s-curve does not exsits on the left side of the spine. This joint holds the rib cage on and the breast plate down and holds the spine up. Susan was declared Disabled on December 21, 2011.

3. Ms. Haupt Leer under the State of Wisconsin guidelines for a nurse practitioner had to have a Doctor that she worked under which was Dr. Anderson, see Susan at least once. Raina Haupt Leer was following what was in writing from Ms. Hoffman from Broadspire. Ms. Hoffman told Raina in a letter that she could not say it was fractured on any level of the spine. A copy of Ms. Hoffmans letter to Ms. Haupt is attached to this petition.

Dr. Anderson never examined Susan or saw her as his patient. Susan is now Divorced and has lost more than a Million dollars and has filed Bankruptcy.

Ms. Sands Wedeward will never work again or own a business. Susan has no income and no Health Insurance she no longer owns a house. Ms Sands Wedeward possessions and her children's possessions are in storage. Ms. Sands Wedeward lives in her Mothers basement at her condo in Cambridge.

Susan has a son with type one Juvenile Diabetes since he was twenty one months of age. Weston schedule and no money has caused him to start to get complications that he would not have gotten until his forties because of Susan not being with him. Ms. Haupt Leer caused everyone to get sued and needs her license revoked. Ms. Haupt Leer than refereed Susan to Dr. Nathan Rudin at the Pain Clinic. Dr. Rudin sexually assaulted Susan in two appointments and Susan over heard Dr. Rudin on the telephone with William regarding his utility patent on a tool guide. Susan was so uncomfortable around Dr. Rudin she needed his help to get this over and his behavior was so upsetting. Susan still does not know why Dr. Rudin would behave like he did and than close the case when Susan still need medical care for the rest of her life.

September 11, 2013

THEREFORE the Petitioner respectfully asks this Court to:

1. Review all medical Documentation and what the American Medical Association has to say regarding the proper treatment of this injury. What happens to a practitioner who Obstructs Justice intentionally. What happens to a practitioner who withholds life saving medical information.

2. Listen to expert testimony by Susan's treating Occupational Specialist.

3. If necessary have the State Medical examiner review all test, Plain Films, MRI's CT Scans, Bone Scans. What proper treatment should have taken place.

4. Ms. Sands Wedeward has to be paid back for everything she lost and made hole. Her bankruptcy has to be paid to restore her credit. Ms. Sands Wedeward has to have the same income and cash for all medical and Dental and Prescriptions for the rest of her life. The children have to have cash for medical, Dental, Prescriptions until age 23. Ms. Sands Wedeward has to be paid the adjudicated dollar amount and pain and suffering. Ms. Sands Wedeward is young and will never be able to run for office or own a business and no longer has a double income. Ms. Sands Wedeward and her two children lost everything that she had worked for. Ms Sands Wedeward will die of complications resulting from this injury and all ready has heart

symptoms that started a year ago. Ms. Sands Wedeward needs hired help grocery and house work and to make a list for someone to do task that she is not able to do.
